Festive season begins on a very high note for the community of Kruisaar. A water supply project was handed over by Assmang Manganese Black Rock Mine Operation together in collaboration with Joe Morolong Local Municipality as part of their Social labour Plan (SLP)

The project involves the equipping of two (2) new bores, erecting of 50 kl of steel water tank, the construction of the 960 metre reticulation pipeline, installation of 11 standpipes, installation of chlorination unit, the fencing around the boreholes and storage.

This initiative is one of many, which the Municipality is collaborating with mines to address the water challenges in the Joe Morolong communities.
